

Product Description:

The Euro Thread Rock Anchor is a mechanical expansion anchor used in many one-sided forming applications and unique anchoring applications. The strength of the anchor is governed by the soundness of the concrete and the depth of anchor placement.

15 mm Euro Thread Water Stop

Part Number: 105.015.0130

Physical Measurements

Inside Diameter	5/8 in / 70 mm x 15 mm
Outside Diameter	4 3/8 in / 110 mm
Length	5 in / 130 mm

Applications

Working Load	21.9 kips / 97.50 kn
Ultimate Load	43.8 kips / 195.00 kn

Physical Measurements

Inside Diameter	7/8 in / 20 mm
Outside Diameter	3 in / 90 mm
Length	5 1/2 in / 150 mm

Applications

Working Load	38.0 kips / 172.50 kn
Ultimate Load	76.0 kips / 345.00 kn
