

Product Description:

Euro Thread Anchors are available in five basic styles, each designed for a very specific application. Our anchors are made from our high strength Euro Thread. Euro Thread Anchors should be placed into fresh concrete within 60 minutes of the placement and measures should be taken to ensure that the concrete is worked around the anchor.

15 mm Wobble Bolt Anchors

Part Number: 110.015.0005

Physical Measurements

Dimensions	22 in long / 559.00 mm long
Weight	1.9 lbs / 0.9 kg
Thread Size	5/8 in / 15 mm

Applications

Working Load	21.9 kips / 97.50 kn
Ultimate Load	43.8 kips / 195.00 kn

Physical Measurements

Dimensions	28 in long / 711.0 mm long
Weight	3.0 lbs / 1.36 kg
Thread Size	7/8 in / 20 mm

Applications

Working Load	38.0 kips / 172.50 kn
Ultimate Load	76.0 kips / 345.00 kn
