

# Formwork She Bolts

## Standard Pass Thru She Bolts

### Product Description:

Concrete Support Systems Euro Thread Standard She Bolt is a pass thru she bolt that can be used with any form system. These pass thru she bolts are machined from solid high strength steel rods. The threads of the she bolt are a standard full round Euro Thread and the end is machined into a square to permit the application of a wrench for product removal. The pass thru she bolt is ideal for jobs where a water resistant inner unit is desirable or where the use of a taper tie is just not practical.

### 15 mm Standard Pass Thru She Bolts

Part Number: 106.015.1001

### Physical Measurements

<b>Inside Diameter</b>	5/8 in / 15.00 mm
<b>Inner Rod Set Back</b>	2 in / 50 mm
<b>Outside Diameter</b>	2 3/8 in / 60 mm
<b>Length</b>	19 in / 482.60 mm
<b>Weight</b>	1.40 lbs / .64 kg

### Applications

<b>Working Load</b>	18.8 kips / 83.70 kn
<b>Ultimate Load</b>	37.6 kips / 167.40 kn
